# SINTAKS MESIN PENCARIAN

Boolean	Fungsi
Intitle/allintitle	Mencari judul sesuai kata kunci
Inurl/allinurl	Mencari alamat sesuai kata kunci
Intext/allintext	Mencari teks yang mengandung kata kunci
Site:	Mencari informasi dari situs tertentu
Filetype:	Mencari dokumen dengan format tertentu

# OPERATOR BOOLEAN

Boolean	Fungsi
AND	Pencarian yang mengandung beberapa kata kunci
OR	Mencari beberapa sinonim sekaligus
NOT	Menghindari sebuah kata kunci
“ ”	(tanda kutip) Menggabungkan beberapa kata sebagai satu kata kunci
Asteris (*)	Menggunakan tanda bintang untuk menggantikan Kata
Tanda kurung	Menggunakan tanda kurung untuk menggabungkan boolean

# Boolean Operator

The image displays three overlapping screenshots of database search interfaces, each illustrating the use of Boolean operators in search queries. The interfaces shown are ProQuest, EBSCOhost, and GALE PowerSearch.

- ProQuest:** The 'Advanced Search' tab is selected. A dropdown menu for Boolean operators is shown, with 'AND' highlighted. The interface also shows a search bar and a 'Search' button.
- EBSCOhost:** The search bar contains the text 'Searching: Agriculture Plus, Show all | Choose Databases'. A dropdown menu for Boolean operators is shown, with 'AND' highlighted. The interface also shows a search bar and a 'Search' button.
- GALE PowerSearch:** The 'Advanced Search' tab is selected. A dropdown menu for Boolean operators is shown, with 'And' highlighted. The interface also shows a search bar and a 'Search' button.

# PERLU DIKETAHUI

## 2.4 Substansi Artikel

### f. Nisbah Sumber Acuan Primer Berbanding Sumber Lainnya

Nisbah jumlah sumber pustaka primer berbanding jumlah sumber lainnya menentukan bobot pemikiran dan gagasan yang dijadikan kerangka penulisan. Makin banyak jumlah pustaka primer yang diacu, makin bermutu pula tulisannya.

### g. Derajat Kemutakhiran Pustaka Acuan

Derajat kemutakhiran bahan yang diacu dengan melihat proporsi terbitan 10 tahun terakhir (kecuali bidang-bidang tertentu yang tidak banyak pembaharuan seperti hukum, taksonomi, dan arkeologi) merupakan tolok ukur mutu terbitan berkala ilmiah yang penting. Karya klasik yang relevan dapat diacu sebagai sumber masalah tetapi tidak untuk perbandingan pembahasan. Pengacuan pada tulisan sendiri (*self citation*) yang terlalu banyak dapat mengurangi nilai terbitan berkala ilmiah.

# LANGKAH PENELITIAN

1.  
TENTUKAN  
TOPIK

2.  
KATA  
KUNCI

3.  
STRATEGI  
PENELITIAN

4.  
SELEKSI /  
EVALUASI

# CONTOH KASUS

Mahasiswa sedang melakukan penelitian dengan judul :

**Bencana Gempa Bumi di Indonesia :**

**Studi Investigasi Terhadap Dampak Bencana dan Proses Pemulihannya**

# 1. TENTUKAN TOPIK

## 2. KATA KUNCI

- ☐ Kata yang spesifik : **Thesaurus**  
(misal **LC Linked Data Service Authorities and Vocabularies**  
<http://id.loc.gov/>)  
Thesaurus pada Proquest
- ☐ Pilih satu sampai tiga kata yang paling mewakili topik
- ☐ Kata kunci umumnya adalah kata benda.
- ☐ Gunakan beberapa alternatif kata (sinonim)

- **DAMPAK GEMPA BUMI**
- **REHABILITASI DAN REKONSTRUKSI PASCA GEMPA**
- **MITIGASI BENCANA GEMPA BUMI**

## Advanced Search

#### ABSTRACT

The sudden changes in coastal land use around the Ulee Lheue Bay of Aceh due to tsunami have greatly impacted the affected communities. Ten years of the tsunami assistance from international donors and the government of Indonesia, have also produced. This research is aimed at monitoring the recovery of coastal land use during 10 years at investigating the influence of the recovery process on the community livelihood. formal rehabilitation and reconstruction process led by Aceh-Nias Rehabilitation (BRRI Aceh-Nias), there has been no systematic process for monitoring the recovery process is considered important for filling the gaps in understanding the mid-term recovery analysis and in-depth interviews were employed in this study. Quantum GIS was used to analyze the images of the coastal area around the Ulee Lheue Bay of Aceh. Twelve key respondents were triangulated to understand the relation between the coastal land use changes and recovery. We found satisfactory recovery process rates for houses and paddy field areas. Mean recovery by about 19% during the 10-year recovery process. We also identify the need for Integrated Coastal Zone Management in the next phase of the recovery process.

### PEMODELAN SUMBER GEMPA DI WILAYAH SULAWESI UTARA SEBAGAI UPAYA MITIGASI BENCANA GEMPA BUMI <sup>1)</sup>

Guntur Pasau<sup>2)</sup> dan Adey Tanauma<sup>2)</sup>

e-mail: [pasaujunior@gmail.com](mailto:pasaujunior@gmail.com)

<sup>1)</sup>Penelitian IPTEK dan Seni dengan Biaya DIPA Unsrat Tahun 2011

<sup>2)</sup>Program Studi Fisika FMIPA Universitas San Ratulangi Manado, 95115

#### ABSTRAK

Pemodelan sumber gempa di wilayah Sulawesi Utara telah dilakukan. Pemodelan sumber gempa menggunakan teori probabilitas total merupakan salah satu upaya mitigasi dalam mengetahui besarnya percepatan suatu gerakan tanah yang diakibatkan oleh suatu gempa bumi. Analisis perhitungan percepatan tanah maksimum di batuan dasar meliputi probabilitas terlampaui 10% dalam 50 tahun. Hasil analisis pemodelan sumber gempa yang telah dilakukan didapatkan bahwa nilai percepatan tanah pada beberapa kota besar di Sulawesi Utara cukup tinggi. Nilai percepatan tanah maksimum yang tertinggi adalah Kota Gorontalo dengan nilai percepatan sekitar 0,5g kemudian disusul oleh Kota Bitung sebesar 0,4g, dan Kota Manado sebesar 0,25g.

Kata Kunci: pemodelan, sumber gempa, probabilitas, percepatan, batuan dasar.

### EARTHQUAKE SOURCE MODELING OF NORTH SULAWESI REGION AS AN EFFORT OF EARTHQUAKE DISASTER MITIGATION

KARYA ILMIAHTAHUN 2017  
(MINIMNYA SUMBER PRIMER)**

companies surveyed is the cost strategy, followed by quality strategy, delivery strategy and flexibility strategy. There is a significant relationship between strategy and manufacturing performance and the fact that the right strategy can improve the performance of an organization. The research also found that Indonesian manufacturing firms that implement flexibility and delivery strategies can achieve better performance (financial and manufacturing) than the other two strategies. This shows the tendency that manufacturing companies that implement flexibility and delivery strategies have greater competitiveness.

The findings of this study support the fact that manufacturing strategies developed in the west or developed countries can be practiced by companies in developing countries such as Indonesia. The findings of this study also imply that accuracy in aligning strategies and environments is necessary to maximize the achievement of company performance. From the perspective of manufacturing companies in Indonesia, manufacturing strategies are needed in (1) responding to the business strategies implemented and achieving the objectives of the company (2) identifying and addressing existing weaknesses or harnessing the company's strengths (3) accommodating environmental changes and changing market demands (4) gaining unique competencies that currently do not yet have (5) making the manufacturing function stronger, and (6) achieving the goal of optimizing company performance. Some possible limitations of this study are the number of companies involved is still considered very limited so it needs to be considered in the generalization of the adoption of research models. In addition, data on manufacturing and environmental strategies are perceptual data obtained from the CEO's manufacturing firms, which still need to be confirmed to the relevant parties directly involved in the company's manufacturing activities.

saja tetapi orang tua kedua belah pihak, saudara-saudaranya bahkan keluarga mereka masing-masing.

Perkawinan menurut UU No. 1 Tahun 1974 pasal 1 perkawinan adalah ikatan lahir batin antara seorang pria dan wanita sebagai suami istri dengan tujuan membentuk keluarga (rumah tangga) yang bahagia dan kekal berdasarkan Ketuhanan Yang Maha Esa, (Jamali. A, 2006)

Diori (2005) mengemukakan bahwa “pernikahan dini merupakan sebuah perkawinan dibawah umur yang target persiapannya belum dikatakan maksimal seperti persiapan fisik, persiapan mental dan juga persiapan materi, karena inilah pernikahan dini bisa dikatakan sebagai pernikahan yang terburu-buru, sebab segalanya belum dipersiapkan secara matang”.

Adapun beberapa faktor yang mendorong terjadinya pernikahan dini di lingkungan masyarakat yaitu:

Faktor ekonomi, berdasarkan BKKBN (1993:9) beban ekonomi pada keluarga sering kali mendorong orang tua untuk cepat menikahkan anaknya dengan harapan beban ekonomi keluarga akan berkurang, karena anak perempuannya sudah menikah dan menjadi tanggung jawab suami. Hal ini

PENDAHULUAN

Diabetes melitus merupakan proses yang berlanjut secara alamiah, dimulai sejak lahir dan pada umumnya dialami pada semua makhluk hidup (Nigroho, 2008). Penyakit degeneratif pada lansia yang disebabkan oleh penurunan fungsi adalah diabetes mellitus dan hipertensi (Subroto, 2006). Penyakit tersebut akan dapat mengganggu aktifitas lansia dalam memenuhi kebutuhan sehari-hari (Sutikno, 2011).

Indonesia termasuk 10 besar negara dengan jumlah penderita DM terbanyak. Pada tahun 2000 jumlahnya 8.426.000 orang, dan WHO memprediksi pada tahun 2030 jumlah ini akan meningkat menjadi 21.257.000 orang (WHO, 2012). Berdasarkan data Riset Kesehatan Dasar Tahun 2007 menjelaskan prevalensi diabetes pada kelompok populasi lanjut usia di negara-negara makin meningkat dengan bertambah panjangnya usia penduduk. Prevalensi diabetes mellitus di provinsi Jawa Timur sebesar 1,0%. Menurut laporan World Health Organization (WHO) bahwa terdapat 1,5 juta penduduk mengalami kematian akibat diabetes dengan prevalensi sekitar 2,7 %. Dari seluruh kematian akibat DM di dunia, 70 % kematian terjadi di negara-negara berkembang termasuk Indonesia (WHO, 2014).

Diabetes Mellitus (DM) adalah penyakit terjadi karena adanya resistensi insulin pada usia lanjut yang disebabkan oleh 4 faktor, yaitu pertama adanya perubahan komposisi tubuh, komposisi tubuh berubah menjadi air 55%, sel solid 12%, lemak 30%, sedangkan tulang dan mineral hanya 3% sehingga tinggal 3%. Faktor yang kedua adalah menurunnya aktivitas fisik yang akan mengakibatkan penurunan jumlah reseptor insulin yang siap berikatan dengan insulin sehingga kecepatan translokasi GLUT-4 (glucosetransporter-4) juga menurun. Faktor ketiga adalah perubahan pola makan pada usia lanjut yang disebabkan oleh berkurangnya gigi geligi sehingga prosentase bahan makanan karbohidrat akan meningkat. Faktor keempat adalah perubahan neurohormonal, khususnya Insulin Like Growth Factor-1 (IGF-1) dan dehidropandrostekon (DHRAS) (Rochmah, 2006).

Hiperlipkemia pada semua kasus disebabkan oleh defisiensi fungsional kerja insulin. Defisiensi efek insulin dapat disebabkan oleh penurunan sekresi insulin oleh sel  $\beta$  pancreas, penurunan respon terhadap insulin oleh jaringan sasaran (resistensi insulin), atau peningkatan hormon counterregulatory yang melawan efek insulin (McPhee & Ganong, 2010). Komplikasi dari DM yaitu hiperglisemia, asidosis ketonuria, sindrom hiperglikemik, hipervolemik nonketotik (Smeltzer & Bare, 2012). Berdasarkan hasil penelitian Roy ada & Trihardini (2013) tentang komplikasi DM pada Lansia didapatkan hasil bahwa jumlah lansia

pernikahan semua umur. Kedewasaan seseorang di dalam hukum adat diukur dengan tanda fisik apabila anak perempuan sudah *haid* (datang bulan), buah dada yang menonjol sudah dianggap dewasa. Bagi anak laki-laki ukurannya hanya dilihat dari perubahan suara, fisik sudah mengeluarkan air mani atau sudah mempunyai nafsu seks.

Faktor perijodohan, menurut Wigiyodipuro (1967:133) pernikahan dini sering terjadi karena sejak kecil anak telah diijodohkan oleh orang tuanya. Dengan melakukan pernikahan dini untuk segera merealisasikan ikatan hubungan kekeluargaan antara kerabat pria dan kerabat wanita yang telah lama mereka inginkan bersama supaya hubungan kekeluargaan mereka tidak putus. Menurut BKKBN (1993:9) adanya kekhawatiran orang tua terhadap anak

Oleh IRWAN JULIANTO

**KOMPAS.com** - Tak kurang dari Gina Kolata, jurnalis sains-kesehatan kawakan koran New York Times, menaruh perhatian pada jurnal online "pseudo-ilmiah" alias jurnal predator. Ilmuwan yang dimuat tulisannya malah harus membayar.

# SUMBER PRIMER : KAITAN JURNAL PREDATOR

## Some Basic Criteria

Journals and publishers engaging in any of the following behaviors will be listed here as possibly predatory:

1. Charging exorbitant rates for publication of articles in conjunction with a lack of peer-review or editorial oversight.
2. Notifying authors of fees only after acceptance.
3. Targeting scholars through mass-email spamming in attempts to get them to publish or serve on editorial boards.
4. Quick acceptance of low-quality papers, including hoax papers.
5. Listing scholars as members of editorial boards without their permission or not allowing them to resign.
6. Listing fake scholars as members of editorial boards or authors.
7. Copying the visual design and language of the marketing materials and websites of legitimate, established journals.
8. Fraudulent or improper use of ISSNs.
9. Giving false information about the location of the publishing operation.
10. Fake, non-existent, or mis-represented impact factors.

4. Directory Open Access Journal (DOAJ)
5. ISJD LIPI
6. GARUDA DIKTI
7. SINTA DIKTI (S1 sd S6)

# Alasan Penggunaan: Reference Manager

## 2.4 Substansi Artikel

### f. Nisbah Sumber Acuan Primer Berbanding Sumber Lainnya

Nisbah jumlah sumber pustaka primer berbanding jumlah sumber lainnya menentukan bobot pemikiran dan gagasan yang dijadikan kerangka penulisan. Makin banyak jumlah pustaka primer yang diacu, makin bermutu pula tulisannya.

### g. Derajat Kemutakhiran Pustaka Acuan

Derajat kemutakhiran bahan yang diacu dengan melihat proporsi terbitan 10 tahun terakhir (kecuali bidang-bidang tertentu yang tidak banyak pembaharuan seperti hukum, taksonomi, dan arkeologi) merupakan tolok ukur mutu terbitan berkala ilmiah yang penting. Karya klasik yang relevan dapat diacu sebagai sumber masalah tetapi tidak untuk perbandingan pembahasan. Pengacuan pada tulisan sendiri (*self citation*) yang terlalu banyak dapat mengurangi nilai terbitan berkala ilmiah.

# Alasan Penggunaan: Reference Manager

## 2.5 Gaya Penulisan

### h. Penyusunan Daftar Pustaka

Penyusunan daftar pustaka yang mengikuti salah satu teknik yang standar harus dilakukan secara baku dan konsisten. Untuk menjaga konsistensi cara pengacuan, pengutipan dan penulisan daftar pustaka, sebaiknya menggunakan aplikasi untuk mengelola pengacuan dan daftar pustaka tersebut, sebagai contoh aplikasi yang gratis (misalnya *Mendeley*, *Refworks*, *Zotero*) atau aplikasi yang berbayar (misalnya *Endnote*, *Reference Manager*).

# Alasan Penggunaan: Reference Manager

## Reasons to choose **Zotero**:

Your research content is diverse: It is the easiest method to gather citation records for non-PDF and PDF content. Zotero's single-click capture works with more databases, catalogs, and websites than Mendeley's Web Importer. You can also [enable the retrieval of PDF metadata](#), which allows you to create citation records just from dragging a PDF into Zotero. Zotero is open source and cannot be acquired by a company.

## Reasons to choose **Mendeley**:

Your research content is primarily contained in PDF files: Mendeley has an integrated PDF viewer and can create citation records just from importing a PDF file. Mendeley.org has the strongest website and community platform.

## Reasons to choose **EndNote**:

Zotero and Mendeley are relatively young tools when compared to EndNote. EndNote X6 offers some advanced features that might be necessary for your discipline and work flow. However EndNote X6 is not free and can be purchased with an educational discount through the Washington University Campus Store or [E-Academy](#).

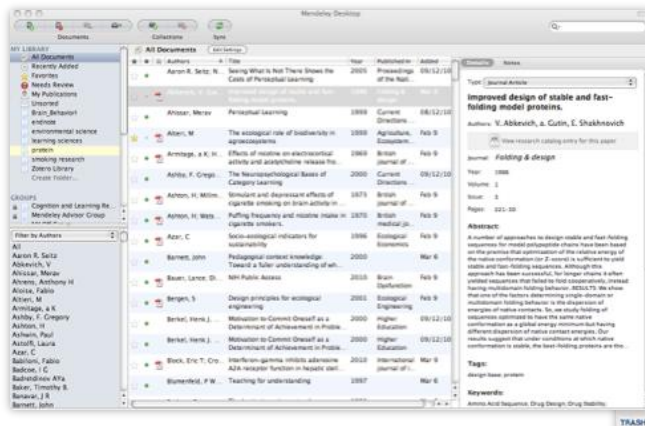

# Perbandingan: Zotero, Mendeley, Endnote

	Zotero	Mendeley	EndNote X6
Cost	Free	Free	Not free: <a href="#">Purchase</a>
Access	Firefox Add-on or Zotero Standalone .	Desktop application; web-based application	Desktop application; syncing enabled through web application ( <a href="#">EndNote Web</a> )
Cross-platform	Yes: Windows, OS X, and Linux	Yes: Windows, OS X, and Linux	Yes: Windows and OS X
Organize PDFs and other documents	Yes	Yes	Yes
Selective syncing of documents	Yes	Yes	No
Annotate / highlight PDFs	No	Yes	Yes
Tagging	Yes (with color tagging)	Yes	Yes (Keywords)
Full-text searching across PDFs	Yes: not enabled by <a href="#">default</a>	Yes	Yes

Public groups	Yes	Yes	No
Community network	Yes	Yes	No
Mobile app	Yes: <a href="#">iOS</a> and <a href="#">Android</a>	Yes: <a href="#">iOS</a> and <a href="#">Android (beta)</a>	Yes: <a href="#">iOS</a>

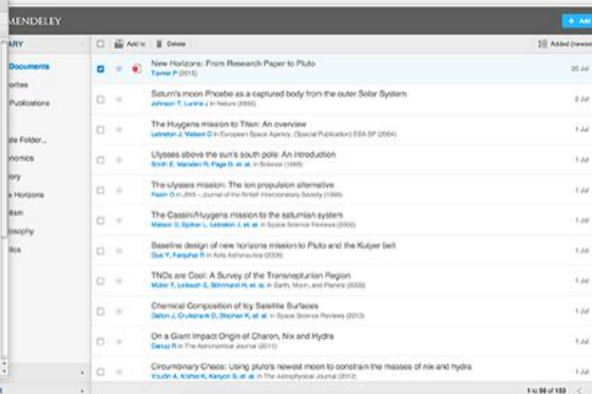

# Apa itu Mendeley?

- Free Academic Software
- Cross-Platform (Win/Mac/Linux/Mobile)
- Kompatibel dengan semua Browser

Desktop

Web

Mobile

# Empat Tujuan Utama

1. **Organize** - Mengorganisir referensi dalam sebuah wadah
2. **Write** – Membuat sitasi dari sumber referensi yang digunakan
3. **Collaborate** - Berkolaborasi dengan orang lain
4. **Discover** - Menemukan penelitian baru

# Keuntungan Menggunakan Mendeley

- Versi berbasis web yang mudah digunakan dikombinasikan dengan versi desktop
- Kemampuan untuk berbagi referensi dengan pengguna Mendeley lainnya
- Kemampuan untuk menyimpan PDF fulltext (kapasitas 2 GB untuk versi gratis)
- Kemampuan untuk membuat daftar pustaka dan sitasi

New Horizons: From Research Paper to Pluto

Tavner P  
2015

NASA's New Horizons mission, part of the New Frontiers Program, is expected to reach its primary target - the dwarf planet Pluto - on July 14 2015. Mendeley was invited to visit NASA during the close approach of Pluto and will be at NASA HQ on the day of the encounter. This report was written to mark the occasion and to share our excitement at being present for the event.

Pages: 210-225

**Abstract:**  
Institutional repositories represent extremely innovative technology, but repository managers still struggle to bring together a critical mass of content and to demonstrate their overall impact on research. In this paper I propose a set of Performance Indicators (PIs) to assess institutional repositories' success. Fourteen internal indicators are selected and inserted in the quadruple balanced scorecard perspective. Three more indicators from an external perspective are then proposed and discussed b...

# Highlight dan Anotasi

The screenshot displays a digital library application interface. At the top, there is a menu bar with options: File, Edit, View, Go, Tools, and Help. Below the menu is a toolbar with icons for Select, Pan, Note, Highlight, Color, Zoom, Fullscreen, Share, and Sync. A search bar is located on the right side of the toolbar, and a user profile for 'Vincentius' is visible in the top right corner.

The main content area shows a document with the following text:

mance indicators; measurement; impact; balanced scorecard

**Introduction**

Institutional repositories (IRs) are some of the most innovative and creative components of digital libraries. They are intended to be a showcase for the research output of an academic repository managers still struggle to bring relevant content from researchers and to academic makers. Despite librarians' efforts, repository managers still struggle to bring relevant content from researchers and to academic makers. Despite librarians' efforts, repository managers still struggle to bring relevant content from researchers and to academic makers.

A yellow highlight is applied to the sentence: "Institutional repositories (IRs) are some of the most innovative and creative components of digital libraries." A tooltip is visible over this highlight, showing the user's name 'Vincentius Widya Iswara' and the text: "RI merupakan suatu komponen yang inovatif dan kreatif dari digital library".

On the right side of the interface, there is a sidebar with tabs for 'Details', 'Notes', and 'Contents'. The 'Notes' tab is active, showing a section for 'GENERAL NOTES' with a text area and a toolbar with bold, italic, and underline options. Below this is a section for 'PRIVATE ANNOTATIONS' with a similar text area and toolbar. A note is visible in the 'PRIVATE ANNOTATIONS' section, matching the highlight in the main text.

At the bottom left of the document, the page number '210' is displayed. At the bottom right, the text 'Liber Quarterly Volume 20 Issue 2 2010' is shown.

# Membuat sitasi pada MS Word (Kutipan langsung)

The screenshot shows the Microsoft Word 2010 interface with the 'References' tab selected. The 'Insert Citation' button in the 'Citations & Bibliography' group is highlighted with a red rectangle. Below the ribbon, a text box contains the following quote:

"Institutional Repositories, Tout de Suite is designed to give the reader a very quick introduction to key aspects of institutional repositories and to foster further exploration of this topic through liberal use of relevant references to online documents and links to pertinent websites"

Below the text box, a dialog box titled 'Go To Mendeley' is shown. The dialog box has a search bar with the placeholder text 'Search by author, title or year in My Library'. Below the search bar, there is a dropdown menu labeled 'My Library' and a button labeled 'Go To Mendeley' which is circled in red. There are also 'OK' and 'Cancel' buttons at the bottom right of the dialog box.
